INTRODUCTION

Our Club was formed in 1969 to cater for those owners of purebred dogs who were interested in trailing their dogs to Obedience Trial standard and has been very successful in this regard. On being granted affiliation with the Victorian Canine Association in 1979, all breeds whether registered or not have been accepted.

CLUB RULES

- **All dogs should be kept on leash at all times, excepted when given permission to work off leash in class.**
- Handlers wishing to leave their dogs tied up on the Club grounds should only do so if their dogs are safe with people especially children. No dog may be tied up where it can reach another dog.
- Dogs in season should not come down to training for four weeks. This does not mean you should stop the training of your dog.
- Dogs must be immunised against distemper and canine hepatitis before coming to classes. This should also be renewed yearly.
- A dog suffering from any illness or skin problems should not be brought to classes until a Vet has pronounced the condition not contagious.
- Handler must remove their dog's excreta from the training area – implements are provided.
- Physical punishment of dogs is not permitted in training classes.
- Instructors have authority over their classes and may ask a member to take their dog out of class if it is disruptive.
- Instructors are not permitted to handle and train a member's dog in class.
- **While at the grounds before and after classes please control your dogs.**

TRAINING NEWS AND TIPS

All articles etc, for Newsletter to be given to Andrea Sciberras

Training Tip

Training your dog starts the day you bring your dog home, whether a puppy or an older dog. Training is for life and may become less intense when your dog gets older, just some gentle reminders when Fido forgets things like going outside to the toilet etc. It is best to train at least once every day for a couple of minutes. Do not repeat an exercise too long so that your dog gets bored with training.

It's all about fun, repetition and patience. If your dog is out of control when you come home just ignore the dog until the dog is nice and calm then you can pat the dog on your terms not the dogs. Teach your dog to sit and wait before letting it out the front door or out of the car, but initially do not make your dog wait too. Gradually build up to longer waiting times.

Never give up training your dog, you can do it.

Vaccinations

Don't forget to have your dog vaccinated when the time comes around, to safe guard your dog while out and about, it is one of the requirements of the dog school. so as soon as you have re-vaccinated your dog please show the vaccination card to your instructor.

To all Dog Owners

Please don't forget to carry something to pick up the poo when walking your dog. This is required by law. You are responsible for what your dog leaves behind and fines can be hefty if you are caught not cleaning up the mess.

ANON

If you can start the day without caffeine or pep pills,
If you can be cheerful, ignoring aches and pains,
If you can resist complaining and boring people with your troubles,
If you can eat the same food every day and be grateful for it,
If you can understand when loved ones are too busy to give you time,
If you can overlook people taking things out on you when, through no fault of yours, something goes wrong,
If you can take criticism and blame without resentment,
If you can face the world without lies and deceit,
If you can conquer tension without medical help,
If you can relax without liquor,
If you can sleep without the aid of drugs,

THEN YOU ARE PROBABLY THE FAMILY DOG

LET SLEEPING DOGS LIE

Taken from "Good Owners, Great Dogs"

"Never interrupt a happy child", my mother told me. The same rule applies to puppies, as long as they are not happily doing something wrong like chewing your shoes. It is important to let the puppy rest. In a large family someone almost always wants to play with puppy. I've seen wild pups, unwittingly trained by eager family members to be constantly active. If she comes up to you to play, but if she is sleeping, chewing a toy in the corner or just relaxing - just let her be.
